PROFESSIONAL SUMMARY

Software Developer with over a year of experience building a customer-facing fintech product at Keyutech - a MERN-stack web app and companion Flutter mobile app - within a 5-8 person agile team. Skilled in React.js, Node.js/Express.js, real-time systems (Socket.IO), and mobile release management, with AI-augmented development practices (Claude Code, GitHub Copilot, ChatGPT, GitHub Codespaces) that cut development time by an estimated 30-40%. Looking to bring that full-stack, cross-platform approach to a product-focused engineering team, startup or larger company.

CORE SKILLS

Frontend: JavaScript (ES6+), React.js, Redux/Context API, Component-based Architecture, React Hooks, Responsive Web Design, Cross-Browser Compatibility

Backend: Node.js, Express.js, MongoDB, REST API Development & Integration, Socket.IO / WebSockets, Basic API Security Practices

Mobile: Flutter (Dart), App Store Connect & TestFlight

AI-Assisted Development: Claude Code, GitHub Copilot, ChatGPT, GitHub Codespaces

Tools & Workflow: Git & GitHub, Agile/Scrum, DigitalOcean, Hostinger VPS, Nginx, SSL/HTTPS

PROFESSIONAL EXPERIENCE

Software Development Engineer

Keyutech Pvt. Ltd. | Jan 2025 - Present

- Built and maintained a customer-facing fintech web application (MERN stack) with multiple feature modules, working within a 5-8 person agile team to ship features, integrate REST APIs, and resolve production bugs
- Designed and implemented responsive, high-performance React.js UI components with a focus on clean, scalable front-end architecture
- Built the real-time chat functionality for the product's Flutter mobile app using Socket.IO (live messaging, typing indicators, online/offline presence), and managed iOS builds/releases through App Store Connect and TestFlight
- Deployed and managed production releases across DigitalOcean and Hostinger VPS (Nginx, SSL/HTTPS), resolving production issues and improving performance through targeted debugging and code refactoring
- Adopted AI-assisted development tools (Claude Code, GitHub Copilot, ChatGPT, GitHub Codespaces) for code review, debugging, and refactoring, cutting development time by an estimated 30-40% on repetitive and review-heavy tasks

Software Developer Intern

Digital India Pvt. Ltd. | Mar 2024 - Dec 2024

- Contributed to approximately 20-30 feature updates and bug fixes across multiple modules over a 9-month internship, working on UI improvements, API integration, and testing/deployment support under senior developer guidance
- Used Git and issue-tracking tools within an Agile/Scrum workflow for day-to-day development

EDUCATION

Bachelor in Computer Science — Sardar Patel University Balaghat, May 2020 - June 2023, GPA: 7.4/10
